brassica®

BRASSICA PHARMA PVT. LTD.

Brassica Pharma introduces a new facility of Sterile General and Ophthalmic ointments/Gels of 500 kg capacity. The experience of over 15 years in manufacturing sterile and non sterile ointments for almost all major national companies has helped us to understand the technology of specializing this field.

The new section is designed as per EU norms and will be equipped with state of the art machinery from Europe.

The facility is designed for EU, TGA and other regulated market for the sterile Ophthalmic ointment product demand.

The filling capacity of 5gm tubes is 100,000 tubes per shift of 10 Hrs. There is provision of adding one more line which will increase the production to 150,000 tubes per day per 10 hour shift.
